DISASTER RISK REDUCTION CLUB

REPORT ON WORLD ENVIRONMENT DAY OBSERVANCE

Organized by: Geographical Society, Botanical Society, and Zoological Society in collaboration with the Disaster Risk Reduction Club.

Institution: Sikkim Alpine University

Date: 5th June 2026

Venue: Sikkim Alpine University, Kamrang Campus.

On the occasion of World Environment Day, the Geographical Society, Botanical Society, and Zoological Society in collaboration with the Disaster Risk Reduction Club of Sikkim Alpine University organized an Environmental Awareness and Plantation Programme to promote environmental consciousness and sustainable practices among students and faculty members. The programme was conducted under the theme “**Inspired by Nature: For Climate, For Our Future,**” emphasizing the importance of environmental protection, biodiversity conservation, and collective responsibility toward building a sustainable future.

Objectives of the Programme

- To create awareness regarding environmental conservation and climate change.
- To encourage students and faculty members to participate in plantation and eco-friendly activities.
- To promote sustainable environmental practices within the university campus and surrounding community.
- To inspire collective action for preserving natural resources and ecological balance.

Programme Activities

The programme commenced with a welcome address highlighting the significance of World Environment Day and the urgent need for environmental stewardship. Faculty members and students actively participated in discussions on environmental sustainability and climate responsibility.

A plantation drive was conducted within the university premises where various saplings were planted by faculty members, students, and members of the organizing committees. The activity aimed to encourage afforestation and enhance the green environment of the campus.

Participation

The programme witnessed enthusiastic participation from faculty members, students, and members of the collaborating societies and clubs. Their active involvement reflected a strong commitment toward environmental protection and sustainable development.

Outcome of the Programme

The event successfully created awareness regarding environmental issues and encouraged participants to adopt environmentally responsible practices. The plantation activity contributed

to enhancing the green cover of the university campus while fostering a sense of environmental responsibility among participants.

Conclusion

The observance of World Environment Day at Sikkim Alpine University served as a meaningful initiative in promoting environmental awareness and sustainability. The programme concluded successfully with a collective pledge by participants to continue supporting environmental conservation efforts for a healthier and greener future.
